# SALT WATER

## Fun Facts

Of all the water on this planet in oceans rivers lakes clouds and so on, only 3 percent is fresh water

We know more about the surface of the moon than we do about earth's oceans

Ocean tides are caused by the Earth rotating while the Moon and Sun's gravitational pull acts on ocean water

Around 70% of the Earth's surface is covered by oceans

Penguins have an organ above their eye that turns salt water into fresh water

While there are hundreds of thousands of known marine life forms, there are many that are yet to be discovered, some scientists suggest that there could actually be millions of marine life forms out there
